

Bachelor of Science in **NUTRITION**

Earn the Nutrition Degree Your Career Deserves

Move your career forward while making a positive difference in people's lives with Purdue Global's Bachelor of Science in Nutrition. As the focus of America's health care system shifts to preventive care, there's a demand for professionals who can educate others about healthy habits and behaviors.¹ In our program, you'll explore the topics, concepts, values, research methods, and applications of nutrition so you can create healthier communities and advance your career in this rewarding field.

Why Study at Purdue Global’s School of Health Sciences?

Built for Working Adults

Complete courses online, without compromising your work or family schedule.

Backed by the Power of Purdue

Earn a degree you can be proud of — and employers will respect. Achieve more in the health care field with a name that opens doors in your career.

Experience Counts as Credit

Get the credit you deserve. Transfer up to 75% of your degree requirements to graduate sooner. You can use prior academic, work, and military experience for credit.²

Graduate Program Pathway

Earn your master’s degree in less time with a graduate program pathway. You’ll take graduate-level courses while completing your bachelor’s degree and get a head start on your master’s program. View the University Catalog for more information.³

Expert Faculty

Learn from nutrition and education experts who are practicing professionals in the field. All Health Sciences faculty possess advanced academic degrees.

Personal Support

Work directly with faculty through online discussion boards and seminars, and enjoy no-cost individual tutoring. In addition, academic and career advisors are dedicated to helping you balance school with your career and life responsibilities.

Introductory Trial Period

Make sure online learning at Purdue Global is right for you. Enroll in the University and try our classes for 3 weeks — before you owe any tuition. That’s the Purdue Global Commitment.⁴

An Education That’s Ranked and Respected

Purdue Global is part of the respected Purdue University system. One of the most prestigious research universities in the world, Purdue is ranked #16 most innovative company in the world alongside Open AI, NASA, and Microsoft.⁵

Program Outcomes Support Your Career Growth

1 Source: U.S. Department of Labor, Bureau of Labor Statistics, *Occupational Outlook Handbook*, Medical and Health Services Managers, Health Educators, and Healthcare Occupations. National long-term projections may not reflect local and/or short-term economic or job conditions, and do not guarantee actual job growth.

2 Purdue Global does not guarantee transferability of credit. Future transfer credit savings are subject to review and the academic policies of Purdue Global. See the University Catalog for Prior Learning policy.

3 Estimated graduation date is based on the assumption that you will enroll in time to begin classes on the next upcoming start date, will remain enrolled for each consecutive term, and will maintain satisfactory academic standing in each term to progress toward completion of your program. Completion time is based on a full-time schedule. Programs will take longer for part-time students to complete.

To start a Graduate Program Pathway, students should consult with their Student Advisor to confirm eligibility. Not all Graduate Program Pathways are available on all tracks, and some may require students to meet academic standards to continue taking graduate courses in their bachelor's degree program. Visit the University Catalog for more information.

4 Students who inform Purdue Global they do not wish to pursue the program during the 3-week trial will not be charged. Students who choose to continue at Purdue Global will be billed for the full first term's tuition, including the 3-week trial, and will need to meet other specific requirements. Classes will be applied toward a degree if satisfactorily completed and students select to continue their studies at Purdue Global. No credits are earned if the student withdraws during the introductory period (3 weeks for new qualifying undergraduate students), which begins day one of the first term. Graduate programs and BS in Professional Flight not included. Additional terms may apply to international and non-U.S. citizen students. For further information, see the University Catalog.

6 Students are responsible for understanding the requirements of optional certification exams. The University cannot guarantee students will be eligible to sit for or pass exams. In some cases, work experience, additional coursework beyond the Purdue Global program, fieldwork, and/or background checks may be necessary to be eligible to take or to successfully pass the exams.

7 The average completion time for Purdue Global online bachelor's degree students who graduated in the 2021-2022 academic year was 2.1 years. Source: Purdue Global Office of Reporting and Analysis, July 2022.

8 The Bachelor of Science in Nutrition program is designed to prepare you academically to pursue a variety of nutrition-oriented careers and advanced education. The Bachelor of Science in Nutrition is an approved holistic nutrition education program through the National Association of Nutrition Professionals (NANP) only when it is completed with the holistic nutrition concentration. However, Purdue Global's Bachelor of Science in Nutrition program is not accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND), and does not qualify an individual to sit for the examination to become a Registered Dietitian (RD) or Registered Dietitian Nutritionist (RDN). In addition, some states will not permit individuals to become licensed in nutrition and/or dietetics if they do not possess the RD/RDN credential. If you are interested in becoming licensed in your state, it is vital that you understand your state's requirements for licensing prior to enrollment. Refer to Purdue Global's State Licensure and Certifications page for state-specific licensure information.
